Template for a 48”x36” poster
Presenter name, Associates and Collaborators
College of Health Solutions, Arizona State University

INTRODUCTION
This editable template is in the most common poster size (48” x 36”) and orientation (horizontal); check with the conference organizers for specific conference requirements regarding exact poster dimensions.

AIM
How to use this template
Highlight this text and replace it with new text from a Microsoft Word document or other text-editing program. The text size for body copy and headings and the typeface has been set for you. If you choose to change typefaces, use common ones such as Times, Arial, or Helvetica and keep the body text between 26 and 32 points.

The text boxes and photo boxes may be resized, eliminated, or added as necessary. The references to the department, college and university, including the logo, should remain.

Refer to the next page for logos commonly used on campus posters. You can drag and drop them to your personal PowerPoint scrapbook for use in subsequent posters; refer to PowerPoint help documents for more specific information regarding how to use the scrapbook.

You can replace the Block I Wordmark in the lower right with your unit lockup.

METHOD
Text
Be sure to spell check all text and have trusted colleagues proofread the poster. In general, authors should:

• Use the active tense
• Simplify text by using bullet points
• Use colored graphs and charts
• Use bold to provide emphasis; avoid capitals and underlining
• Avoid long numerical tables

Authors should rewrite their paper so that it is suitable for the brevity of the poster format. Respect your audience— as a general rule, less is more. Use a generous amount of white space to separate elements and avoid data overkill. Refer to Web sites or other sources to provide a more in-depth understanding of the research.

RESULTS
Images
Avoid the use of low-resolution images, especially those downloaded from the Internet, as they will reproduce poorly.

In order to insert an image, use the menu toolbar at the top of your screen.

Select:
1 Insert
2 Picture
3 From file
4 Find and select the correct file on your computer
5 Press OK

Be aware of the image size you are importing.

CONCLUSIONS
We have created this template with scientific researchers in mind and with the help of feedback we have received. We encourage any comments or suggestions so that we can continue to update and improve this template. To make a suggestion contact:

ACKNOWLEDGEMENTS
Check to make sure you’ve acknowledged partners and funding agencies, either with text or with their logos.
